### **DETAILED ACTION**

The following is an examiner's statement of reasons for allowance: The cited prior art does not at least teach or suggest the following concept within the context of claims 1-25, taken as a whole:

The combination of amplifying first and second wavelength intervals via parametric amplification in respective first and second nonlinear optical fiber and subsequent multiplexing of the amplified signals.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication should be directed to Mark Hellner at telephone number 571 272 6981.
